### Wireless Ronin Technologies Expands Headquarters with Move to New Facility

Minneapolis – July 3, 2007 -- Wireless Ronin Technologies (NASDAQ: RNIN), a Minneapolis-based digital signage provider, announced today that it is relocating its corporate headquarters from Eden Prairie, MN to a new facility in the Baker Technology North Plaza at 5929 Baker Road, Suite 475, Minnetonka, MN 55345, beginning July 9, 2007.

“The new facility provides the space and office features required to facilitate and manage the growth of our business and better serve the needs of our clients,” said Jeffrey Mack, president and CEO of Wireless Ronin Technologies.

The new headquarters will house all departments of Wireless Ronin including administration, sales, marketing, finance, project management, network engineering, creative, software development and the Network Operations Center (NOC). The NOC has been expanded to increase the number of associates per shift for round the clock global network monitoring. The facility also includes onsite client training, art review and product display areas.

“The new facility is a great venue for the various departments of Wireless Ronin to functionally meet the requirements of our client’s applications,” added

Mr. Mack. "It also provides a choice of areas for client meetings and demonstrations that can showcase our technology as related to their particular business strategies."

The new corporate headquarters, two and a half times the size of the company's current facility, also includes an onsite warehouse and has capacity to handle staffing requirements approaching 100 associates to facilitate the future growth of the company.

#### About Wireless Ronin Technologies

Wireless Ronin Technologies ([www.wirelessronin.com](http://www.wirelessronin.com)) is the developer of RoninCast®, a complete software solution designed to address the evolving digital signage marketplace. RoninCast® provides clients with the ability to manage a digital signage network from one central location. The software suite allows for customized distribution with network management, playlist creation and scheduling, and database integration. Wireless Ronin offers an array of services to support RoninCast® including consulting, creative development, project management, installation, hosting and training. The company's common stock trades on the NASDAQ Capital Market under the symbol "RNIN".
