Wireless Ronin to Exhibit RoninCast Digital Signage

Applications and Sponsor InfoComm '08

MINNEAPOLIS, MN – June 3, 2008 – Wireless Ronin Technologies, Inc. (NASDAQ: RNIN), a Minneapolis-based worldwide digital signage provider, today announced that it will be exhibiting at and sponsoring the InfoComm 2008 tradeshow to be held June 18-20th, 2008 at the Las Vegas Convention Center.

“InfoComm offers the ability for Wireless Ronin to reach the most tech-savvy IT and AV professionals from a wide-range of industries who are getting increasingly involved in the digital signage space,” said Jeffrey C. Mack, chairman, president and CEO of Wireless Ronin Technologies.

Wireless Ronin will be exhibiting in booth N7318 as well as sponsoring a variety of areas and events at the show including the digital signage pavilion, the digital signage showcase and the digital signage presentation stage. Scott Koller, Wireless Ronin’s executive vice president of sales and project management, will be presenting on the topic “In-Store Content Control” on the presentation stage located in the digital signage pavilion at 11a.m. on Wednesday, June 18th.

Wireless Ronin’s Thomson Reuters case study will also be available in the digital

signage showcase area via a touch screen and projection screen providing a view of the program's content.

Each year InfoComm, the most comprehensive event in the AV industry, attracts technology managers and buyer from a wide-range of industries including government, education, healthcare and retail to experience the latest technologies and application solutions. InfoComm 2008 is expected to draw over 32,000 attendees from over 80 countries to the three day show. For more information about Wireless Ronin or for a free show pass, please visit www.wirelessronin.com. Additional information about InfoComm 2008 is available at www.infocommshow.org.

About Wireless Ronin Technologies

Wireless Ronin Technologies, Inc. (www.wirelessronin.com) is the developer of RoninCast® digital signage, a complete software solution designed to address the evolving digital signage marketplace. RoninCast digital signage provides clients with the ability to manage a digital signage network from one-central location. The software suite allows for customized distribution with network management, playlist creation and scheduling, and database integration. An array of services are offered by Wireless Ronin to support the RoninCast software including consulting, creative development, project management, installation, hosting and training. The Company's common stock is traded on the NASDAQ Global Market under the symbol "RNIN".
